

Healing Journeys Testimonies with spiritual mechanic highlights:

Blue: Word

Yellow: Mind

Purple: Emotions

Courage: Orange

Pink: prayer & misc.

Merci Santos: MS

No use of arms, couldn't swallow, incontinence, numb all over, pain, muscle spasms, couldn't speak or stand, cognitive problems.

I kept saying, "I don't care what you see, by His Stripes I am healed." I kept hanging onto that.

The LORD GAVE ME Acts 3: I walked into church & felt the heat of the Holy Spirit touching me and I walked, but I couldn't retain it. I got sick again.

Lord, what am I doing wrong?

Saw Andrew: A Better Way to Pray

I watched him every day & started applying the principles from the Word.

My life started changing.

Daughter: "From the day she started watching, she began changing - physical/facial features."

PROGRESSIVE, GRADUAL HEALING.

I learned

I applied

Healing came

I knew I was healed whether it came instantly or not. (like Chas. Capps/confident I had it. Cho with \$50 million).

Husband(this is now): “She totally believes God wants her well & that He has already. So when symptoms come up in her body, right away she speaks to that specific symptom and in Jesus’ Name, that symptom evaporates almost instantaneously. Her faith is to receive healing right then.”

Andrew: “We come and say, Thank You, Father. You have provided. You have given me Authority (Mk. 11:23). Command things to respond.

Merci: “I don’t need anything. I have the Power of God IN me - any little thing I just rebuke it in Jesus’ Name. Andrew said: “You have to be a fanatic” and that's what I’m going to be.

Racquel Hudson Testimony: Lupus, kidney & heart failure

1:36 dialysis 7 yrs.

husband focused on her identity in Christ, spoke that to her; put Scriptures up/covered mirrors in house: “You have to see yourself like Christ sees you.”

3:04: Husband: I knew life was going to be won up here (mind) His stmt

3:39 worst case of shingles doctors ever saw/hip trouble from steroids/unable to have transplants.

4:58: Andrew: don’t beg/release power/speak

5:58 things began shifting - mentally, emotionally, etc.

6:41 went to Charis but couldn’t continue

6:45 took a break from school but not from Revelation God already paid for my healing. We stayed close to Life/Truth

7:23 renewing mind. Dr. your heart is failing b/c you aren’t eating.

went home and declared and ate in Jesus/ Name. Heart healed, received kidney transplant.

10:36 We don't have to **strive & strain** - put in the seed in your heart.

Yvonne Smith: Multiple myeloma & breast cancer

Had listened to Andrew for years, knew her authority, by His Stripes, God wanted her well.

God: Set back with me.

I journaled and spent time in the Word.

Went back to Dr. - two large cancers. Saw Jesus at the whipping post/cancers left immediately. When Dr. took x ray again, they weren't there.

Went along 4 several months well, then began to feel fatigued & took supplements.

Blood test showed multiple myeloma (a cancer of plasma cells in bone marrow. 3 - 3 ½ yrs to live)

Spent 40 days in prayer & fasting - not doing it from a place of rest. In the Word then looking at symptoms. **I was not focused at all.** I **felt hopeless.** My **focus** was distracted by voices contrary to Scripture.

God: Are you ready to get real with this thing? Don't look up on the internet, look up to Me!

"I'm not a gallon of milk, how dare you put an expiration date on me!"
Given 3-3 ½ yrs to live.

Determined to **get serious** with her fight against cancer.

Another 40 days prayer & fasting, staying focused on God's Word.

Battlefield of the mind. Praise. .

I was progressively getting better.

Abiding in the Finished Work

From this place of rest, her symptoms gradually disappeared.

I said: "I've got to finish my 40 days."

I only did 20 days and the Dr. called & wanted to run test.

Every test came back normal.

Praise God BEFORE you see the enemy defeated.

Learn to abide.....

Abide INthe Word.

The Word abiding IN you.

Vonya Curry Testimony: Nurse with cancer

Therapy - supplements, food to detox, 70 pills a day.

I said to God: "You've made me **smart**, I'll get out of this on my own."

Ovarian cancer - granulosa cell tumor: blood contaminated.

Husband healed of cancer with vitamins, detox, etc. not supernaturally.

She thought she could do the same - it didn't work.

Gerson therapy, 20 lbs. of veg a day, dozens of supplements & enzymes, detox session. Regimented/faithful about it.

Body full of parasites.

We weren't winning.

Discovered Andrew & healing message.

Went through testimonies.

My Mom believed right then.

I was still seeing things in formulas: watching their story and trying to FIGURE OUT HOW THEY DID IT, the steps they took, etc.

Saw Drama: “Hem of His Garment” & I saw the love of God racing through time to get to me.”

I had never asked the Lord what He thought.

The HEALING house I built wasn't the same house as the ones that others built.

My house had a different floor plan.

But the thing that was the same in all was **THE WORD**.

If your heart condemns you: you don't have proof.

I would get out **the Word** and reassure my heart.

I started in March and by April I was a different person.

She renewed her **mind** with Scripture.

Went to see Andrew expected everything to be great but it wasn't.

Worst test yet.

I heard God say: “this isn't you”

I burnt my test results and had confidence to stop my meds.

The Holy Spirit was with me and I had peace.

I am completely healed.

Staying in the Word.

Expect miracles.

There's a labor TO rest and a COMPLETE rest.

We walk through both on our healing journeys.

Jeremiah Klass:

mental, emotional & physical issues

drugs, alcohol

½ of body numb

depressed, suicidal

Psych ward 2 times because of **mind issues**. I'd get out and start up with the drugs & alcohol again.

Born again at Salvation Army: no fellowship.

Addiction really took over.

4 more rehabs.

Trouble with the Law & homeless.

I asked God every day to help me, guide me and that's when the Power of God shows up.

I locked myself in a room at my sisters for 1 ½ mos. listening to Christian music. Watched TBN.

Then I felt led to go to Colorado Springs.

My trust in God was building.

I did the Word - BUT NOT OUT OF RELATIONSHIP.

As I stayed in the Word, my mind began to think properly.

I believed God & I trusted God.

I went back to Ohio and wound up in a nursing home. I felt in my heart that if I didn't seek God with everything I have, I'm going to die this time. I was in 5 rehabs all together.

I took the Word all the way into my heart and said: "I'm going to follow this Word no matter how much it(his body) hurts."

I read **the Word**, went to Church & started helping people - it kept my **mind** off of ME.

Bible study, fellowship, music - saw a woman on her deathbed healed of aids through our prayers.

I was still in pain & **torment** & then I realized I needed a teacher - Andrew came up online.

I began to discern what the Word said.

Andrew gave me a foundation: What God is like and what He provided for us on the Cross.

While I was listening, I still had a lot of **mental stress** - I couldn't seem to get freedom **in my mind**. I couldn't figure out why **the Word** wasn't working for ME.

God kept His hand on me.

Jeremiah 29:11: I TRUSTED GOD in that verse, having an expected end.

The Word was renewing my mind even though it was hard for me to stay focused on it. Listening to Youtube was easy but I would also go to the Bible and look at Scriptures.

I received the Baptism of the Holy Ghost but I still felt I was fighting & striving. I got tired of it, stepped back & said: "God, I can't do this anymore."

It was the first time I really talked to God: "I can't do this any more. If you can do something, please do it." Right then the Power of the Holy Spirit took over.

I was restricting His Power by NOT ASKING God for His strength, wisdom, guidance.

The more I asked, the more His Power showed up inside me - it became effortless, restful & easy.

As I did that, my **emotions** & **mind** were released from all that pressure and the Power of God moved in me more.

I developed childlike dependency on God.

I was able to just believe **the Word** only & trust God to bring it to pass.

We're all being headed in the direction of freedom.

Jeremiah Klass testimony #2: My first healing testimony

(J.K. healed of M.S. after giving up. An addict turned Charis student who learned to rest in the finished work. Ended up in nursing home on disability. I needed a teacher: Andrew W.: God wants you well. Day after Day I listened: Mike Hoesch, etc. 8 years of listening and still not healed. He didn't understand that God's Word was not a formula or a 12 step program.)

I kept trying to get healing ON MY OWN.

I kept looking in the Scriptures for it.

1 Peter 2:24; Mark 16. Luke 9:1. I determined from these healing was for today. I saw God wanted to use me AND heal me.

5:06 I took the Word of God & counteracted my unbelief & brought myself into believing. If you believe only - you will start to see those scriptures come to pass in your life.

5:22 For me that was a very hard battle - mind/negative thoughts, fear. Once I really just stood strong & firm in believing.

6:10 Acts 3: What I do have, I give you.

7:48: God's Power is voice activated that is why Jesus always spoke to people's issues.

8:17: God confirms the words we speak.

8:26: what blocks that is unbelief - not really and truly believing in your heart that it's going to happen mainly because you don't see it yet.

8:43: I had all kinds of unbelief to counteract so I kept listening & listening.

8:56: & I was being transformed by renewing my mind.

9:06: For 3-4 mos. every day I'd look at the Scriptures & listened to teaching. I laid hands on a man with 2 bad discs and he was healed. This showed me healing was 100% real and was for today.

11:42: I understood then why we don't see healing, we don't believe God's Word - we have our own way of thinking or we believe what other people tell us.

I'm here to share my testimony of what God's Word did in my life.

Believe God over what your fears, doubts or anyone else is saying.

"If YOU believe the Word only!"

Connect with the Scriptures!

No matter how many times I quoted Scripture or prayed for others....
I was doing everything I could do.
Enrolled @ Charis - no feeling in body.

I MISSED THE FIRST THING: ASKING GOD INTO ALL THIS!

Rest & trust Him instead of believing you have TO DO something to GET GOD TO MOVE. (Windsor: His Word moves Him to do something)

All my **focus** went on God & my relationship with Him.
I WASN'T LOOKING AT MY SYMPTOMS ANY MORE. I stayed so **focused** on Jesus, I didn't realize my symptoms were fading away.

I started doing construction around the house and thru that forgot about my symptoms. One day, putting shingles on a roof, I realized I really was healed.

I quit MY WORKS and turned to God for help, that's when my healing came!

You can have religion or walk with God like Adam & Eve before the Bible was written.

I HAD ONE BLOCK: NOT KNOWING HIM PERSONALLY.

Jeremiah Klass: How to get Healing from your spirit to your body

Not self effort, not you taking responsibility to make it happen.
Let go of this life & LET GOD.
Galatians 2:20 came alive to me.
Not TRY TO receive, receive, receive

6:27:

- 1) have power of the Holy Spirit
- 2) have RELATIONSHIP with God/make God your friend.
- 3) **understand the Word** - that you are already healed.

6:58: Prov. 3:4-6: TRUST God's Word

Don't try to 'make' a healing teaching work, just let it.
Don't talk to God to 'get', just talk to God!

"If I do this, I'll get this" You have to get out of that thinking.
A LOVE RELATIONSHIP is what you want with the Father.
If we LOVE GOD - we will trust Him.

TRYING GETS YOU BURNT OUT!!!

Be REAL with God.

Trust Him with your whole heart, if we don't, we're not in trust.

- I will give you rest: resting in the 'already done'

WALK, TALK, TRUST, REST!

To know God is Eternal Life: NOW.

I READ **THE WORD TO RENEW MY MIND**, BUT MY **EMOTIONS** HAS PROBLEMS.

- Return to your 1st love.
- Have a radical relationship with God JUST BECAUSE YOU WANT TO.
- I couldn't make it work and my heart was sick.
- "Trust me, you are already healed. I've got you in My Hands."

I was tired of 'seeking' healing.

Jeremiah Klass: When nothing works

i did whatever I could to receive healing>
Healing Journeys showed me it was possible.
After 8 years, I was tired of seeking healing.

- He said: You're TRYING to receive something that you were supposed to already have.

God gave me the courage to believe 1 Peter 2:24 & ONLY THAT.

Walking and talking with God made the Scripture come off the page and into my heart. I was doing the Christian life in a 'mechanical' sense before.

When you read and study Scripture but nothing is working: talk to God!

If I'm not reading **God's Word**, I'm walking with the One who wrote it and talking with Him like a friend.

If you are going to check your body you are going to come into a lot of problems. **By looking at the Word only** - not the senses, you become a true believer.

Start at the 'end' of YOURSELF.

- I had head knowledge but it wasn't connected to the heart.

The Christian life is easy on the inside but may be hell on the outside.

"O.K., by your stripes I am healed."

Have a loving relationship with God.

- 15:26: seeking healing out of pressure.

16:03 knowing God - greatest commandment

20:16 friendship with God

- 26:21 healing in a 'rest form'

28:21 Without relationship all the pressure is on you.

talk to God & make him your friend.

God does it IN you....

Without relationship, authority doesn't work when speaking.

Mike Hoesch testimony below.....

Mike Hoesch: Healed of massive 5 lb cancerous tumor
Diagnosed in 2000

He prayed< Father, I thank you that you have provided healing, I receive that now and I command this thing to leave my body. I didn't have the clarity of understanding that I have now. I just left it at that and thought it was over with but it was still there and it started spreading out after about a year or so. I began to ooze and bleed, etc.

Had pastor pray over it and in another year or two, it was a sore about an inch or two around and then it elongated.

God 'going' - common teaching in church.

Pastor suggested herbs, etc. From mid 90's up until 2000 or so our pastor was teaching a lot on nutrition and foods God had provided for that. He had illnesses that he never got over by praying for them so he thought that as diligent as he was in the work of the ministry that maybe God doesn't heal these things, He has provided something in the world for them - carnal reasoning.

And for him to go to Dr. so they could pray specifically.

Dr. immediately recognized it as cancer & sent him to specialist.
malignant neoplasm/actively growing.

I had sudden fear/I realized a shift was taking place in my heart and I knew it wasn't good. I was resisting but still I felt this rising up inside of me.

Was in a legalistic ministry when diagnosed, taught healing but it was all in 'performance based' doctrine. No sin in your life; not in God's will, in rebellion to the pastor, .

When pastor asked me what I was going to do, then I had fear of rejection .
“I wouldn’t make a decision until you get rid of that fear (of cancer).”

I canceled surgery. Pastor prayed for me.
Dr. warned me it was deadly when he found out I canceled.
The devil really used that to torment me.

When you 1st get something and it doesn’t hinder you from doing what you want, you put it on the back burner.

Feb. 2002 - got flu and tumor started growing. He gets weaker. Tumor gets bigger. He didn’t have peace about getting it cut off.

for next 5 years, it was one hurdle after another. Another thing I wasn’t doing right uncovered at church.

I was very careful with my words and who I told (life & death in power of tongue) (so already SAYING right things) Part of why I didn’t tell it was embarrassment. I had burden of being rejected by people that knew me.

Oozing, bleeding, odor. About 5 lbs.
Low blood pressure but fast heart rate for two or 3 years.
Tumor feeding off blood in his body.
Put tumor in a bra to hold weight of it.
Something we just had to live with and eventually God would heal him.

I had legalistic thinking and I thought I had to keep all of my ducks in a row (what I said, etc.) because if I slip up once God wouldn’t release healing for me. Plus what was going on at the church: words of k & w, people calling me all the time with a ‘word’. That was worse to deal with than the tumor.

Nurse practitioner - pastor: do what she tells you to do. Did blood work.
“Don’t be afraid of the evil report.”

I had made a decision, even though it was driven by legalism, that I was going to follow the Lord all the way.

I tell everyone one of my favorite verses:

Scripture that encouraged me: Prov. 4:20-22

I decided that every moment I had I was going to get into God's Word.

I knew I was short on life and needed health to all my flesh.

"Mike, pay attention to what I am saying to you. Stretch out your ear to hear ONLY what I am saying to you and don't take your eyes off it but keep what you're hearing from me in your heart because that's going to show you where life is and when you find that life it will be health to all your flesh." So that was my guarantee. I hung on to that. I knew that was guarantee for life.

The legalistic thinking countered that. I thought I was always being evaluated by God, like He was always measuring me, have I got up to this place yet where he would release healing.

I would make myself go to church and if I couldn't I would call the pastor and ask him if I could stay home. He had more authority in my life than God. I felt that if I was honoring him I was honoring God. (culture of honor teaching in charismatic movement). I finally got free to follow the Lord and realized I didn't need to honor men above God. But I didn't see it at the time.

I understood from Word I had a promise of life (this was settled in my heart) I was taking pictures of the progression of the tumor believing that God WOULD HEAL ME. Even though I knew what Christ has accomplished for me in my mind and heart there was going to be a moment of release for that, that God would pull the pin and all of a sudden everything would fall into line. The negative of that is that believing for me wasn't just trusting God, believing for me had become a performance. No peace, constantly guarding myself against saying anything contrary to the Word

I stayed that course for 7 ½ yrs. involved with the nutrition aspect. I finally quit the nutrition after 6 ½ yrs and decided I was going to eat anything I wanted.

After 7 ½ yrs I was studying the Word again, Mt. 21:22/Mark 11:23&24 He read this way: What things soever you desire, when you pray BELIEVING, you receive. I felt inspired to read it backwards: if you HAVE received, you HAVE believed.

At this point I decided to go all in. I said: I haven't received, so that means I haven't believed. I don't think people understand the significance of my admitting I wasn't believing. My admitting I wasn't believing because I wasn't receiving - that was the deal breaker.

In the Scripture believing is all that is required to receive healing, but in my mind believing was a performance/a work. I was just another scribe/another Pharisee that Jesus was dealing with. When I admitted in my heart I wasn't believing, instead of feeling rejected, for the first time in years I felt accepted.

I said, well maybe I don't know how to believe.

He was right there to encourage me, He reminded me of things I had believed for in the past.

That belief was just an acceptance of TRUTH that had produced rest in my heart. But what I striving to keep all my ducks in a row so that I could be okay with God. For the first time I began to see clarity in my own heart, I had been deceived into thinking I was believing.

Whenever we are connecting our deliverance to anything but the Finished Work of Christ & our free acceptance of that, we're connected to another yoke and that yoke keeps us double-minded. James 1: tossed to and fro (that was so much me) God is not the variable, it was my unstable thinking

A friend gave us Andrew's teaching on CD: You've already got it!
We started seeing that what we were believing wasn't based in Scripture.
We saw how quickly God will deliver if we will just follow his directions over
some legalistic mindset.

God was waiting for my heart to say: "Okay" and accept.
Any kind of performance is saying that what Jesus did wasn't enough. I
need to do something PLUS what Jesus did.

Hundreds of times I prayed, I believe help my unbelief. I would hear
nothing. The only way to help your unbelief is to let go of it.

The tumor was connected inside, not just on the skin, i.e. tree.
Exodus 23:25

I could see tentacles under my skin growing out from the tumor
I was consenting to what the devil was doing because I wasn't taking a
stand against him.

Did you get mad at God?
I never felt mad at God, I felt like the devil was picking on me.
I cried out to God: tell me what to do or what not to do!
He said nothing - also through the total silence in my room etc

We have filters in our thinking and perceptions of what we think God to be
and we can twist or turn something he says into something that doesn't
represent him.

If He would have SAID 'nothing', I would have started in: Which nothing?

I went back to the Word b/c I knew I still had unbelief and I said: I can't
Keep looking at the same things I've been looking at because nothing will
change. I approached the word with A New Perspective. as I read, if it said

Jesus did it, then I said I don't have to do it! If it says God's going to do it then I'm just going to expect him to do it. (30:50 Pt 2)

If there's something I need to do, then I'll just do it. I'm going to stop looking for results. I'm just going to expect them to be there. Through that process over the next 5 months I got to the place where I knew what Jesus did for me was enough. I went from an attitude of needing to be healed to It's Already Done. I got fully persuaded. I shed all the filters and I became convinced by God Word alone to the point of peace that I'm already healed. "I know I'm healed but I don't know why I still have symptoms" I said to my wife.

I asked the Lord to show us something we were missing. Friend told him a dream that there was something he needed to do. Something on the inside of me stood up like it hadn't before....it was a rage but a peaceful rage. Jesus driving out money hangers. My first taste of indignation. The Word I had been in the past few months, moved me to being fully persuaded to point I was going to act on it no matter what. My wife thought the answer came in the dream. That was the devil, I don't have to DO another thing TO BE healed.

That's when I knew what the root of the sickness was: even though I was fully persuaded knowing I was healed, in my heart there was still this question: was there something I had TO DO for the symptoms to go away.

In That moment of indignation I drove the last of the money changers out of the Temple I had a peace that I hadn't had and it was a peace that passed my understanding.

It wasn't like the peace I had from reading a Scripture and then go saying: "I'm healed" until a symptom or something worse came up,(36:59) it was a peace that I knew everything was over. that I didn't have to think about it any more.

Those symptoms became not part of me in that moment, It was as if I was wearing someone else's clothes or in someone else's body. I was free to live.

Two weeks later it was smaller.

“Well, of course, God’s healed me, it has to get smaller”

Even though we had to dress it twice a day my focus was totally off it and on God’s Word. (Medicate but don’t meditate)

By May it was getting smaller and smaller.

By August nothing, just a little bump.

For 8 years Mike believed for his healing w/no results, then he drew a line in the sand between the Word of God and his own unstable thinking and chose to believe the Word that healing had already been provided by God’s Grace and the malignant tumor disappeared.

What were you doing every day - in bed, laying on couch, etc.?

You can’t forget my legalistic thinking - I determined I wasn’t going to let this control me: I’m getting out of bed and showering every day. I made myself do it every day. I’d make my bed. I moved from chair to chair to be comfortable but I didn’t lay down because I felt I would be giving in to it. I made myself eat. I think in some ways that was very good for me because it made me not ever give in. Even if God wasn’t leading me, stubbornness was and that was still good.

Feb to August, the tumor tapered off.

I wasn’t doing the praise dance because I had already been on that roller coaster. I had peace it was already done.

Do an excited praise dance you have it not trying to get it.

It takes a lot to get me excited - but I did once when I burned my bra in May.

Tumor dissolved away!

(Lake with woman who had tumor and thought she was pregnant.)

I never thought about my body's part in removing it - I kept my focus on the spiritual removal of it.

The enemy wants you to think your problem is physical then you won't address the strength or root behind it and that will limit you from walking in deliverance, you will be like me, up & down like a roller coaster because of my symptoms because that was the only basis of evaluation I had was what I could see, hear, feel, etc.

If you allow the word to dominate your heart, which is spirit and life, then you will see your adversary is the devil not whatever sickness you have. 1 Peter: your adversary the devil.

My victory came through the Spirit, 2 Cor. 4:18 - looking at the eternal things we can't see.

In that place of separation unto the Spirit we see clearly our adversary.

It wasn't just a physical healing but a heart healing.

3 John 2

I see that as the separation from the physical.

The flash is always going to follow the spiritual part of you.

Until the spiritual part is in agreement with what has already been done for you in Christ, there is nothing to manifest.
