Mike Hoesch: Getting sickness out of your mind Pt 1
(the numbers you see below are the location of the comment in the video.
See link below for Mike's video.)

It was two years **before** I Ever Had It diagnosed, it just got worse and worse so one day I went to my pastor and the Pastor said why don't you go to the doctor and get him to diagnose it and then we can pray specifically

That should have been a red flag to melike we need to know the name in order to get rid of it

Jesus never spoke to one single Disease by its name other than "come out of him" or come out of her **so why would I have to know the specific name for it ?**

It is important that you realize that the minute you have a name for the sickness, the enemy is going to try and get you to identify with it.

At First it's not there mentally because you don't know the name of it. then after the diagnosis:

I have a such and such a sickness now or

"I have cancer"

And is that good for your heart? No.

7:54

If we were accurate we would say cancer has us in our expression of it

So back to me:

At this point I had the problem a couple years and I wasn't afraid. I thought maybe I had a flesh-eating bacteria, maybe MRSA, something like that which I had no fear about

I just thought:

You know what? It's going to pass. It has to go!

But once I went to the doctor, the doctor wrote the diagnosis.

(you know the sheet that they give you). When I left the office and called my wife because it was in Latin. I read it to her and she looked it up. called me back and told me "it is cancer, Mike, it's not benign it's malignant."

9:02

In other words it's actively growing and I thought to myself:
"OH MY GOODNESS!"

In that moment sickness went from something just being in my flesh to now it was "Cancer, you're going to die!"

That's the thought what came into my heart

So now the 'something' that was just in my body, that was an inconvenience because it was messing up my shirts and people were asking: "hey what's going on over there?"

What was just an inconvenience, now **got into my mind** as something to be afraid of okay?

It wasn't in my mind before other than having a mess each time I took off my shirt or it was always kind of itching and bothering me in the very beginning before it started growing out as a tumor.

Anyway the point is this:

11:24 it really **wasn't on my mind**

I didn't think about it other than you know constantly being aware and feeling like I had to scratch it or itch it and then the messing up my shirts but that day

when I heard that diagnosis, right away Boom! it was in my mind

16:00 That's why I said in the beginning:

It's not what's in your physical body that is the problem because God already has the solution for that

He already figured that all out. It's already been done in Christ Jesus. It's what **we** do with what He has done or:

what **our(your) mind is going to allow** our(your) heart to **receive** about what He's done that is going to make the difference for us(you).

So:

if in our(your) mind and heart

we(you) see ourselves(yourself) as a sick person,

then that(image/imagination/thought) has to be overcome in order for us(you)

to embrace

what's already been done

in Christ Jesus
